Any man can take a newspaper. It is the cheapest thing he can buy. Every time a hen cucks and has laid an egg his paper is paid for that week. It costs less than a postage stamp—less than to send or receive a letter. It comes to you every week, rain or shine, calm or stormy. No matter what happens it enters your door a welcome friend full of sunshine, cheer and interest. It opens the door of the great world and puts you face to face with its people and its great events. It shortens the long winter nights. It is your adviser, gossipier and friend. No man is just to his children who does not give them the local newspapers. No man is good to himself who does not take newspapers.—Western Publisher.

Many Grand Rapids citizens have received treatment and have been benefited thereby at the hands of Dr. McElwee, the Chicago specialist, but none have shown more wonderful improvement than Mrs. E. J. O'Dell.

When she consulted Dr. McElwee some time ago she was completely discouraged because her health had been bad for years and doctor after doctor had been tried with no help whatever. For years she had been practically a prisoner, her condition being such that she felt unsafe away from home. The attacks of dizziness, leading to partial unconsciousness, caused her to feel safer at home than elsewhere.

The doctors had thought the trouble was due to some stomach affection, but Dr. McElwee, when consulted, stated that the whole trouble was in her nervous system. The results of his treatment indicate that he was right. Recently Mrs. O'Dell has returned from a visit to Ashland and during the whole time she was away did not experience a symptom of her former distressing affliction.

—WANTED.—500 cords of pine wood for pulp at the Pioneer Pulp Co.

—Lovers of music will be glad to know that Fountain B. Wood is the man who conducts the musical affairs of the Mahara minstrels which appear in the opera house here Tuesday, July 10th. Prof. Fountain B. Wood for the past three years has been the musical director of Booker T. Washington's Tuskegee college in Alabama and it was only the independence of a fair salary that persuaded him to join the Mahara forces.

As a violin and a trombone virtuoso, Prof. Wood has fine equals and as a band master has been called the colored Sousa, so that outside of the laughable antics of the Darktown senators those who witness the performance next Tuesday night will be treated to a class of music seldom rendered by a traveling organization. Mahara's famous challenge band and orchestra will give a gorgeous street parade at noon the day of the show.

There is an opportunity for someone to get a prize and Wood county some free advertising. The Orange Journal, published in Chicago, has offered \$500, out of 150 prizes, the first of which is \$100 in cash for the best statement, not to exceed 500 words, in answer to the question: What are the advantages and disadvantages of your section? It is open to everybody and the offer ought to get some responses from this section. Should a very large number of replies be sent from this county the above named paper will send its land commissioner here to make a special report on the county. The plan is part of a far reaching plan inaugurated by the journal referred to, to enable the agricultural, financial and other interests of this section to cooperate in making our advantages better known. There are plenty of natural advantages in this county, tell about and 500 words would hardly cover them, but with the material to work from, some bright Wood county individual might win first prize, with a little effort.

A teachers' institute is being held at the Howe building at which there are about sixty in attendance. Superintendent Morris is being assisted by Prof. W. H. Cheever of Milwaukee, Supr. H. C. Buell of Janesville, and Miss Martie P. Dockery of Whitewater.

May good luck attend him.

Cured of Chronic Diarrhoea After Ten Years of Suffering.

"I wish to say a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mrs. Mattie Dargie, of Martinsburg, Va. "I suffered from chronic diarrhoea for ten years and during that time tried various medicines without obtaining any permanent relief. Last summer my children were taken with cholera, and I procured a bottle of this remedy. Only two doses were required to give me entire relief. I then decided to try the medicine myself, and I did so, and I have never since been troubled with that complaint. One cannot say too much in favor of this wonderful medicine." This remedy is for sale by Otto's Pharmacy.

The Ferris Wheel.

Among the usual questions asked when you have returned from the World's Fair at St. Louis, "Did you ride on the Ferris Wheel?" and we are glad to say, "Yes." It was a delightful day, with a clear sky, and gentle breeze so that we had a most exhilarating ride, and magnificent view of the World's Fair grounds and the city of St. Louis, as well as the country for many miles around. In fact, it is the very best view that can be had. We were so well pleased with it, and had heard so much of the brilliancy of the Fair at night that we went back in the evening to see the illumination, which is provided by about 200,000 electric lights. It was one of the most remarkably brilliant spectacles that we ever looked upon. In talking with other visitors to the Fair, we found that a large number of them agreed with us that the best way to get a panoramic view of the Fair by day, and to get the best conception of the illumination by night, one must take two trips on this famous wheel, and that is what the visitor usually does.
